

**FOR IMMEDIATE RELEASE** (February 14, 2023) – Pittsburgh Regional Transit will be constructing a new ramp to the inbound platform of Overbrook Junction this month to improve accessibility along the Red Line.

To facilitate construction, the existing ramp will be closed from Tuesday, February 21 through Sunday, February 26. The new ramp is expected to be finished by the start of service on Monday, February 27.

Riders must use the station's outbound platform between 9 a.m. and 2:30 p.m. on Tuesday, February 21 and Wednesday, February 22 while crews construct a temporary inbound platform. Once complete, the temporary platform will be able to accommodate all riders except those who require a flat surface for mobility devices.

Riders who need to use a ramp should instead board Blue Line or Silver Line rail cars at nearby Willow Station. Those who specifically need to use the Red Line should board rail cars at Castle Shannon Station or Washington Junction.

Riders with questions are encouraged to contact Customer Service by calling 412-442-2000 on Twitter @PghTransitCare or via live chat at [www.ridePRT.org](http://www.ridePRT.org).
